1.0 INTRODUCTION

LFR Inc. (LFR) has prepared this Institutional Controls Annual Report (IC Annual Report) on behalf of the James Campbell Company LLC, the current owner of the Del Monte Pineapple Kunia Plantation Superfund Site ("the Site"; Figure 1) to comply with the requirements of the March 19, 2007 Consent Decree. The U.S. Environmental Protection Agency (EPA) identification number for the Site is HID 980637631.

2.0 PROJECT OBJECTIVES

The objectives of this report are to summarize activities undertaken by the James Campbell Company during the previous year to comply with the requirements of the Consent Decree and to certify such information as required by the EPA.

3.0 INSTITUTIONAL CONTROLS

The Consent Decree requires that the James Campbell Company monitor institutional controls at the site to verify that property owners and lessees have not:

- 1.) undertaken any construction in the Source Area or the Well Restriction Area that has damaged or interfered with, or might damage or interfere with, any basal groundwater monitoring or extraction wells, or equipment associated with those wells; or
- 2.) submitted an application for a water use permit to withdraw water from any well located in the "Well Restriction Area".

At the time of the preparation of this report, approximately 426 acres of Lot 882-A is owned by Fat Law's Farm Inc. The Certification of Compliance, signed by Tim Law, the owner of Fat Law's Farm Inc., is provided in Appendix A.

LFR reviewed Monthly Water Resource Bulletins prepared by the Hawaii Department of Land and Natural Resources (DLNR) Commission on Water Resource Management (the Water Commission) to verify that no new applications for well installation or water use permits within the well restriction area have been submitted during the previous year. The Well Restriction Area covers portions of the DLNR well quadrants 3-2503, 3-2603 and 3-2703 as shown in Figure 2. No well permits or water use permits were submitted to the DLNR for these three quadrants during the previous year (September 2007 to August 2008).

LFR also reviewed the publically available minutes for the Monthly Water Resource Bulletins meetings of the Water Commission. This review verified that no water use permits for the Well Restriction Area were submitted to the DLNR during the previous year. The monthly reports are included in Appendix B.

4.0 SITE INSPECTION

On September 2, 2008, Jon M. Mollison and Jeffery C. Morrell of LFR conducted a site inspection of the Source Area to verify that the remediation system and vegetative cap are intact and operational. At the time of the inspection, access to the Source Area was restricted by the presence of a six foot tall chain link fence. The fence prevents vehicle access from the northern (plantation village) side and the eastern (Kunia Road side) of the Source Area. The major components of the remediation system consisted of:

- A vegetated soil cover and storm water controls uphill of the source area.
- A soil vapor extraction(SVE) system to remove contaminant mass from the deep soil and reduce perched water impacts on the basal aquifer. Extracted soil vapor is treated using carbon absorption.
- A groundwater extraction system providing hydraulic containment and dewatering of the perched aquifer area. Extracted groundwater is treated using phytoremediation.

The source area had been graded and a vegetative cover was in place at the time of the inspection. The vegetative cover consisted of recently hydroseeded native grasses and a newly installed irrigation system. The storm water control system in the source area consisted of grading the ground surface to direct runoff without creating gullies and to prevent ponding. Storm water in the upper portion of the source area (near the Kunia Well) is directed into a concrete diversion ditch capable of conveying a 100-year storm event to a drainage swale directing water off-site to the East and across Kunia Road. The drainage ditch is connected to the swale by a large culvert culminating in an energy dissipater.

LFR inspected the SVE system which was installed on a concrete slab protected by a roofed and open sided pole barn. The well heads and piping for the SVE system, and the groundwater extraction system, appeared to be in working condition with no visible damage or causes for concern.

LFR also conducted a drive through inspection of the Well Restriction Area to verify that no new wells have been constructed without notification to the State Water Commission. Access to the basal monitoring wells was provided by well maintained agricultural roads. Basal monitoring wells BMW-1 through BMW-6 were confirmed to be present and in good working order. However, LFR noted that the surface completion of BMW-6 did not include traffic bollards to protect the above ground components of that well.

5.0 SUMMARY AND CONCLUSIONS

LFR conducted activities to verify that institutional controls were restricting land and/or water use in the Source Area and Well Restriction Area of the Site. Based on our review of available information LFR concluded the following:

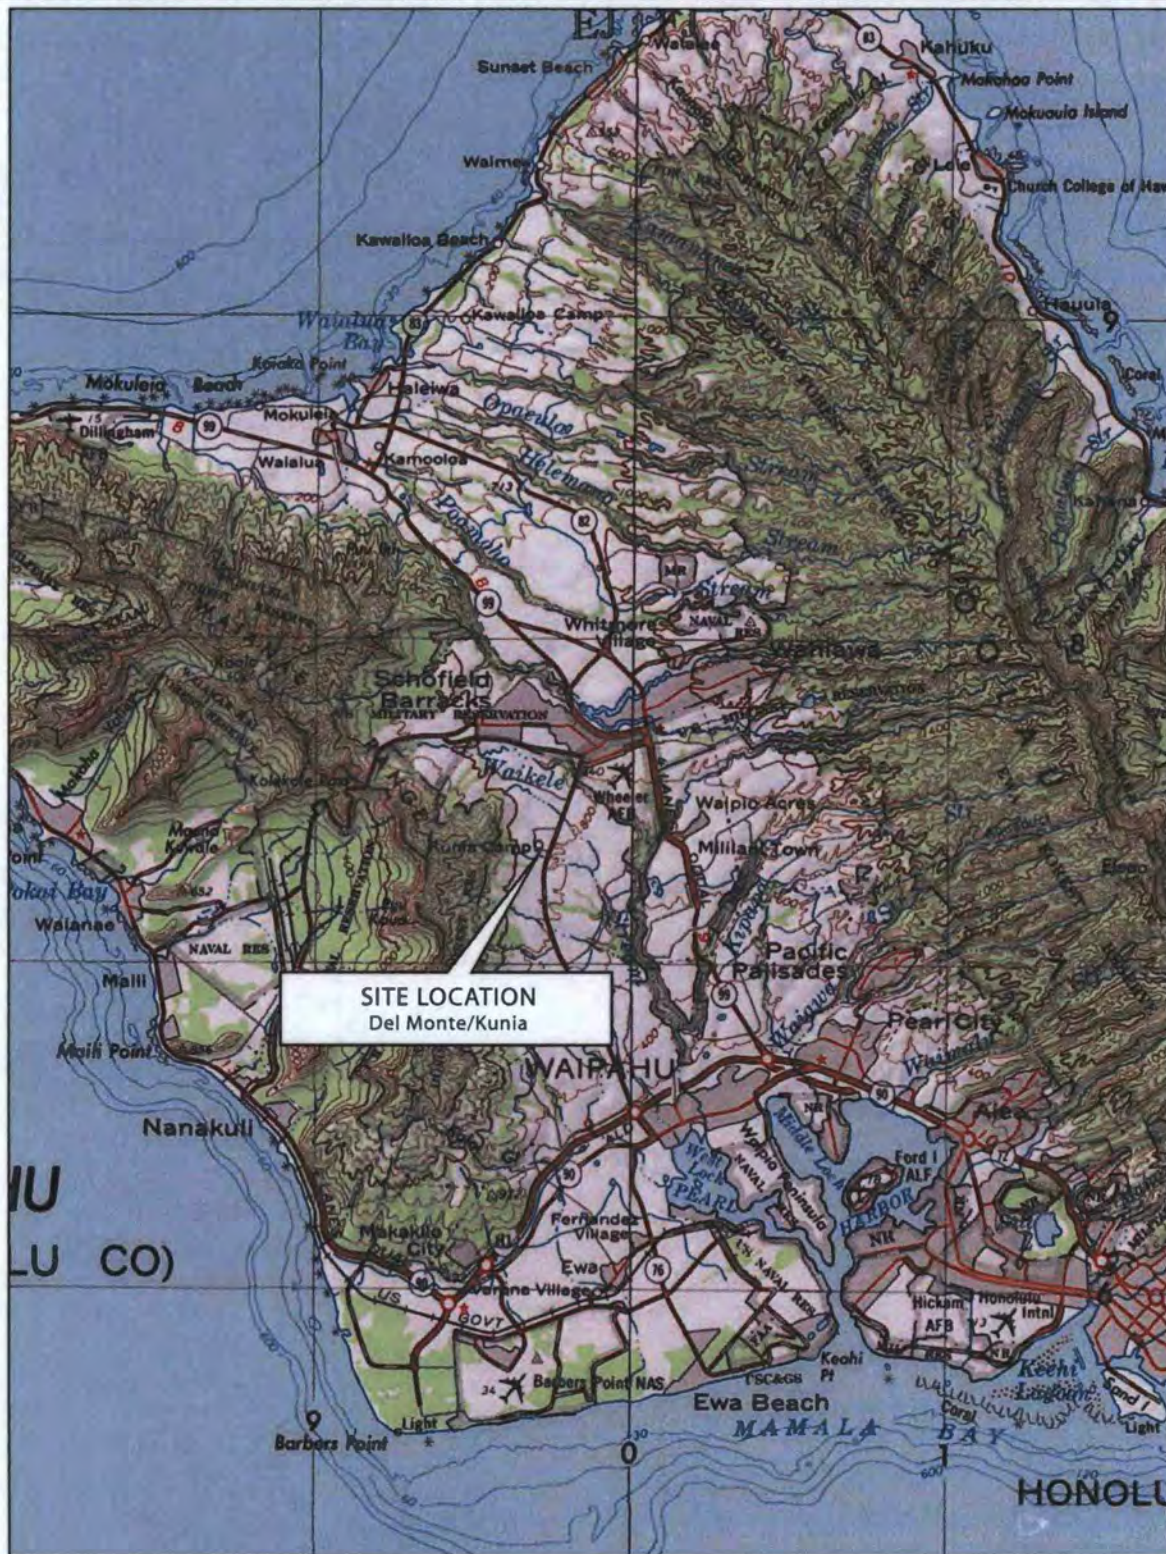

- All affected lessees and landowners certified compliance with the Consent Decree.
- No permits for water use have been requested of the DLNR's Water Commission.
- An inspection of the Source Area and basal monitoring wells confirmed that the remediation system is intact and operational.
- No construction or other activities have interfered with the functioning of the basal monitoring wells.

D. Petitions for the Designation of Water Management Areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the napan and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes." On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation
- **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hui o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, will take action on the Final Findings of Fact and Chairperson's recommendation to designate the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as water management areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the riparian and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water."  - **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hui o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, will take action on the Final Findings of Fact and Chairperson's recommendation to designate the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as water management areas

D. Petitions for the Designation of Water Management Areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the napan and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes". On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation
 - **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hui 'o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, designated the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as surface water management areas. A public notice setting the starting date to submit water use permit applications will be issued soon. Existing users have one (1) year to file to continue their existing use status

D. Petitions for the Designation of Water Management Areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the riparian and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes". On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation
- **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hui o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, designated the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as surface water management areas. A public notice setting the starting date to submit water use permit applications was issued on April 30, 2008. Existing users have one (1) year to file to continue their existing use status

D. Petitions for the Designation of Water Management Areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the riparian and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes." On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation
 - **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hui o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, designated the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as surface water management areas. A public notice setting the starting date to submit water use permit applications was issued on April 30, 2008. Existing users have one (1) year to file to continue their existing use status

D. Petitions for the Designation of Water Management Areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the riparian and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes". On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation.
 - **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hul o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either: (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, designated the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as surface water management areas. A public notice setting the starting date to submit water use permit applications was issued on April 30, 2008. Existing users have one (1) year to file to continue their existing use status.

D. Petitions for the Designation of Water Management Areas

- **Surface Water Management Area, Ahupuaa of Punaluu** - On January 20, 1994, the Punaluu Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the napanā and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes." On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation
- **Surface Water Management Area, Na Wai Eha** - On December 6, 2006, Earthjustice, representing Hui o Na Wai Eha and Maui Tomorrow Foundation, Inc. filed a petition requesting that the Commission either (1) recognize the watersheds of Waihee, Waiehu, Iao, and Waikapu Streams (collectively, Na Wai Eha) as part of the existing Iao Ground Water Management Area, or (2) designate the Na Wai Eha Surface-Water Hydrologic Units as a surface water management area. The chairperson consulted with the County of Maui's mayor, council, and water department prior to making a recommendation to the Commission regarding the proposed designation. The Commission, on February 21, 2007 approved the chairperson's recommendation to continue the designation process, which includes publicizing and holding a public hearing, initiating and completing investigations, completing findings of fact, further consultation with the Mayor, County Council, and the Department of Water Supply, and final Commission action. Notice was published and a public hearing was held at the J. Walter Cameron Center in Wailuku on April 26, 2007, to hear public testimonies regarding the proposed designation. A draft Findings of Fact was completed and there was further consultation with the County. The Commission, on March 13, 2008, designated the Waihee, Waiehu, Iao, and Waikapu Surface Water Hydrologic Units as surface water management areas. A public notice setting the starting date to submit water use permit applications was issued on April 30, 2008. Existing users have one (1) year to file to continue their existing use status
